WHO WE ARE

The intelligent layer above every carrier.

ShipVerge Company is a Saudi limited liability company and a Transport General Authority licensed freight broker, headquartered in Jeddah. We sit above 20+ carriers and freight partners, so businesses compare, book and track every shipment in one place, while volume pooled across 200+ customers unlocks enterprise rates.

Founded as JetParcel, the company became **ShipVerge on 1 January 2026** as it grew from parcels into freight, customs clearance and delivery.
